

Press release
17th April 2018 | Renningen

K2 Systems now have a presence in Brazil

The company has opened another location and is serving the high demand on the South American continent with the new sales office in São Paulo. The current photovoltaic market study conducted by Greener provided concrete figures that distinguished K2 Systems as the most popular brand in Brazil.

1st place in the current study conducted by Greener

The “Solar Photovoltaic Market” study published in January 2018 examined the Brazilian solar market and the solar modules, inverters and mounting systems used.

The 552 companies surveyed voted K2 Systems the most popular brand for mounting systems. 18 percent of the companies prefer to purchase K2 components and appreciate the easy mounting and the good availability from their distributors.

The complete study can be found here: [Link](#)

Sales office opened in São Paulo

The sales office in the Brazilian city is now K2 System's seventh foreign location and confirms the growth path of the German company.

Hanns Martin Drope who has been working for K2 Systems since the start of the year is responsible for Latin America and manager of the new location. Mr Drope has many years of experience in the Brazilian solar industry and a strong network because he was responsible for the Latin American region at REFU Elektronik and was previously manager of the solar division at Fronius Brazil.

Dates for product training will be presented shortly and of course the company is also exhibiting at the upcoming Intersolar South America (stand number: G22). The K2 website is now available in Portuguese.

About K2 Systems

As a manufacturer of mounting systems for solar technology, K2 Systems has been developing innovative system solutions for the international photovoltaics industry for 14 years.

130 employees work on cost-efficient and trend-setting mounting systems for roofs across the world at the German headquarters in Renningen and the seven branches in England, France, Italy, South Africa, Brazil, USA and Mexico. International customers and partners are convinced by the high quality and functionality of the proven mounting systems for installation on pitched roofs, flat roofs or ground mounted and special projects.

The longstanding experience, the service-oriented principles, as well as the personal touch in all dealings ensure that K2 Systems is the ideal partner.
