Wire Management Perfected with the K2 4 Wire Dragon Clip

K2 Systems proudly unveils its latest innovation, the K2 4 Wire Dragon Clip. Engineered to streamline wire management, this state-of-the-art clip delivers unmatched convenience, efficiency, and reliability.

The K2 4 Wire Dragon Clip marks a significant leap forward in cable management technology. Designed for superior performance in both railed and rail-less systems, this versatile clip eliminates the need for zip ties or various cable clips. Its innovative design enables seamless attachment directly to the PV module frame, eliminating the need for additional cumbersome hardware.

Key features of the K2 4 Wire Dragon Clip include:

1. **Durable Materials:** Constructed from stainless steel, the clip ensures a robust and steadfast attachment to the module. Its UV-resistant nylon body mitigates the risk of sharp edges damaging cable insulations.
2. **Streamlined Installation:** Tool-less installation simplifies the process. Just clip it onto the module flange and push your cables into place effortlessly.
3. **Secure Cable Management:** With the capacity to securely hold up to four PV cables or two Enphase Q Cables, the clip ensures tidy cable management, minimizing the risk of damage or interference.
4. **Enhanced Versatility:** Compatible with all K2 Systems, the clip underscores its adaptability and versatility.

In addition to its exceptional functionality, the K2 4 Wire Dragon Clip is engineered for durability and longevity. Constructed from high-quality materials, it withstands the rigors of the most demanding environmental conditions, ensuring reliable performance for years to come.

The K2 Systems Vision

K2 Systems stands for worldwide power generation from solar energy.

The heart of the company is the development of installation-friendly mounting systems that are tailored to the needs of our customers, though the soul is the common spirit of all employees.

Together we define technical innovation and set new service standards for a sustainable future.

K2 Systems International

As a manufacturer of mounting systems for solar technology, K2 Systems has been developing innovative system solutions for the international photovoltaics industry since 2004. They have over 20 years of experience as roof top specialists and have installed over 32 GW worldwide.

420 employees work on cost-efficient and trend-setting mounting systems for roofs across the world at the German headquarters in Renningen and the eleven branches in England, France, Italy, South Africa, Brazil, USA, Mexico, Australia, Slovenia, Spain and Sweden. International customers and partners are convinced by the high quality and functionality of the proven mounting systems for installation on pitched and flat roofs or for tailor-made projects.

The longstanding experience, the service-oriented principles, as well as the personal touch in all dealings ensure that K2 Systems International is the ideal partner.
