The K2 Edge is Now Available to Enhance Your PV Installations

K2 Systems, a leading name in the solar industry, proudly announces the launch of its latest innovation: the K2 Edge. Designed to revolutionize the aesthetics and functionality of solar arrays, the K2 Edge sets a new standard for simplicity, efficiency, and elegance in solar mounting solutions.

The K2 Edge is a culmination of years of research, development, and collaboration with industry experts. With its sleek design and easy installation process, it offers a seamless integration into both new and retrofit solar systems. Its four-part construction includes the K2 Edge Kit, Dark Plastic, Connector, and Corner, each engineered to provide a high aesthetic finish while ensuring durability and reliability.

"We are excited to introduce the K2 Edge to the market," said Nich Pak, Residential Product Manager at K2 Systems. "This product represents our commitment to innovation and excellence in the solar industry. We believe it will provide immense value to our customers by simplifying installation processes and enhancing the overall look of their solar arrays."

Key features of the K2 Edge include:

- **Sleek Design:** Crafted with a black matte finish, the K2 Edge offers a modern and sophisticated look for solar installations.
- **Simple Installation:** The bracket that attaches to the module frame is installed using a 13mm socket like the rest of K2's components, then the remaining K2 Edge pieces use a tool-less installation process. The Corners are universal, and the K2 Edge can be easily customized, cut, and installed in various configurations.
- **Durable Construction:** Made from scratch-resistant materials, the K2 Edge is built to withstand the rigors of outdoor environments and ensure long-term performance.

Connecting Strength

The K2 Systems Vision

K2 Systems stands for worldwide power generation from solar energy.

The heart of the company is the development of installation-friendly mounting systems that are tailored to the needs of our customers, though the soul is the common spirit of all employees.

Together we define technical innovation and set new service standards for a sustainable future.

K2 Systems International

As a manufacturer of mounting systems for solar technology, K2 Systems has been developing innovative system solutions for the international photovoltaics industry since 2004. They have over 20 years of experience as roof top specialists and have installed over 32 GW worldwide.

420 employees work on cost-efficient and trend-setting mounting systems for roofs across the world at the German headquarters in Renningen and the eleven branches in England, France, Italy, South Africa, Brazil, USA, Mexico, Australia, Slovenia, Spain and Sweden. International customers and partners are convinced by the high quality and functionality of the proven mounting systems for installation on pitched and flat roofs or for tailor-made projects.

The longstanding experience, the service-oriented principles, as well as the personal touch in all dealings ensure that K2 Systems International is the ideal partner.
