

Fact sheet K2 Systems

> 130

In 130+ countries installed

110 GWh

K2 systems generate 110 GWh per day

32 GW

Total capacity of installed K2 systems

120

> 120 distributors worldwide

Foundation: 2004

Management: Katharina David and Willem Haag

Headquarters: Renningen-Malmsheim (near Stuttgart, Germany)

Locations:

- Australia: K2 Systems Pty Limited; Brisbane City
- England: K2 Solar Mounting Solutions Ltd.; Aldermaston
- France: K2 Systems SARL; Annecy le Vieux
- Italy: K2 Systems s.r.l.; Bologna
- Mexico: K2 Systems; Zapopan
- Slovenia: K2 Systems, d.o.o.; Ljubljana
- Spain: K2 Solar Systems, S.L.U.; València
- South Africa: K2 Solar Mounting Solutions (Pty) Ltd; Cape Town
- Sweden: K2 Solar Systems AB; Gävle
- USA: K2 Systems, LLC; Oceanside

Engagement in Germany: German Solar Industry Association, Federal Association of Medium-Sized Businesses BVMW, Solar Cluster Baden-Württemberg; **Engagement international:** Member of SolarPower Europe, Swissolar, PV Austria, Solar Energy UK, Enerplan France, Italia Solare, UNEF/APPA Spain and Australian Clean Energy Council

Worldwide distribution: Mounting systems from K2 Systems are in used in over 130 countries. These systems generate approximately 110 gigawatt hours per day.

Product portfolio

- [Mounting systems for pitched roofs](#) with tile, corrugated fibre cement, trapezoidal sheet metal and standing seam.
- [Mounting systems for flat roofs](#) with concrete, bitumen, membrane, green roofs, gravel or trapezoidal sheet metal
- [Mounting systems for facades](#) made of solid masonry or concrete, sandwich elements or trapezoidal or corrugated sheet metal
- [Ground mounted systems](#) + [Carports](#)

Digital services

- [K2 Base](#): Online planning software to design the mounting system and send project data directly to inverter and yield forecasting tools.
- [K2 DocuApp](#): App for recording project data from preliminary planning directly on site through to documentation of PV projects
- [K2 Resource Center](#): Career starters and PV professionals benefit from learning formats such as live webinars, tutorials and training courses. Here they find the right support to plan and implement PV projects efficiently.
- [K2 Buddy and K2 Buddy App](#): Live monitoring with early warning function for impending module overloads

In a nutshell:

As a specialist in photovoltaic mounting systems, we offer load-bearing and economical solutions for flat and pitched roofs, facades, ground mounts and carports. We support our customers competently, quickly and reliably from planning through to the successful realisation of PV projects. Planners and installers benefit from our digital services and personalised customer support. Together, this is how we drive global power generation from solar energy.
